SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This notice is directed to the public in general. It may, however, be of particular interest to you if you manufacture (defined by statute to include import) and/or process TSCA-covered chemicals and you may be identified by the North American Industrial Classification System (NAICS) codes 325 and 32411. Because this notice is directed to the general public and other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be interested in this action.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

The Toxic Substances Control Act (TSCA) (15 U.S.C. 2601 *et seq.*) authorizes the EPA Administrator to promulgate regulations under TSCA section 4(a) requiring testing of chemicals and chemical groups in order to develop data relevant to determining the risks that such chemicals and chemical groups may present to health or the environment. Section 4(e) of TSCA established the ITC to recommend chemicals and chemical groups

to the EPA Administrator for priority testing consideration. Section 4(e) of TSCA directs the ITC to revise the TSCA section 4(e) *Priority Testing List* at least every 6 months.

You may access additional information about the ITC at <http://www.epa.gov/oppt/itc>.

V. The TSCA Interagency Testing Committee

Summary

The Toxic Substances Control Act (TSCA) Interagency Testing Committee (ITC) is revising the TSCA section 4(e) *Priority Testing List* by removing five High Production Volume (HPV) Challenge Program orphan chemicals. Orphan chemicals are those HPV chemicals for which no sponsors have volunteered to develop and submit robust summaries of basic hazard and fate testing data to EPA.

The TSCA section 4(e) *Priority Testing List* is Table 1 of this unit.

TABLE 1.--TSCA SECTION 4(e) *PRIORITY TESTING LIST* (NOVEMBER 2013)

I. Background

The ITC was established by TSCA section 4(e) “to make recommendations to the Administrator respecting the chemical substances and mixtures to which the Administrator should give priority consideration for the promulgation of rules for testing

under section 4(a).... At least every six months ..., the Committee shall make such revisions to the *Priority Testing List* as it determines to be necessary and transmit them to the Administrator together with the Committee's reasons for the revisions” (Public Law 94-469, 90 Stat. 2003 *et seq.*, 15 U.S.C. 2601 *et seq.*). ITC reports are available from [regulations.gov](http://www.regulations.gov) (<http://www.regulations.gov>) after publication in the **Federal Register**. The ITC produces its revisions to the TSCA section 4(e) *Priority Testing List* with administrative and technical support from the ITC staff, ITC members, and their U.S. Federal Government organizations. ITC members and staff are listed at the end of this report.

II. ITC's Activities During this Reporting Period (June 2013 to November 2013)

During this reporting period, the ITC discussed the 50 HPV Challenge Program orphan chemicals remaining on the TSCA section 4(e) *Priority Testing List*. As a result of these discussions, the ITC removed 5 HPV Challenge Program orphan chemicals from the TSCA section 4(e) *Priority Testing List*. The hazard and fate testing data requested by the EPA for HPV Challenge Program orphan chemicals are necessary to establish a screening level understanding of their potential human health and environmental impacts. The HPV Challenge Program orphan chemicals are discussed further in section III of this 73rd ITC Report.

III. Revisions to the TSCA Section 4(e) *Priority Testing List*: Removal of HPV Challenge Program Orphan Chemicals

In 2004, at EPA’s request, the ITC added 281 HPV Challenge Program orphan (unsponsored) chemicals to the *Priority Testing List* in the ITC’s 55th and 56th ITC

Reports (Refs. 1 and 2). As of June 2013, 231 HPV Challenge Program orphan chemicals had been removed from the *Priority Testing List* because they were included in EPA's test rules, the testing was voluntarily sponsored or because they no longer met the ≥ 1 million lb production or importation volume criterion for the HPV Challenge Program. During this reporting period, EPA requested that 5 HPV Challenge Program orphan chemicals be removed from the *Priority Testing List* in this 73rd ITC Report (Ref. 3). One of the HPV Challenge Program orphan chemicals is included in a HPV Challenge Program submission and 4 chemicals had production or importation volumes below 1 million lb reported to the 2006 Inventory Update Reporting (IUR) rule and the 2012 Chemical Data Reporting (CDR) rule. The five HPV Challenge Program orphan chemicals being removed from the *Priority Testing List* and the rationales for their removal are listed in Table 2 of this unit. The 45 HPV Challenge Program orphan chemicals remaining on the *Priority Testing List* are listed in Table 3 of this unit.
